ORGANIZATION

INTRODUCTION

The first part of this directory lists the organization structure of the bureaus and offices of the United States Department of Agriculture, and is a revision of and supersedes Miscellaneous Publication No. 233, List of Technical Workers in the Department of Agriculture and Outline of Department Functions, 1935. Although the material is similar to that contained in Miscellaneous Publication No. 233, this revision is not a list of technical workers, but rather an organization directory with a list of personnel complete enough to serve most official needs of the Department and cooperating agencies. Because of limitations of space, a reduction has been made in the number of personnel listed for activities other than research, showing only supervisory personnel at each location. In many cases, bureau or division lists will adequately serve the needs of workers engaged in the many important service and regulatory activities of the Department. The list of personnel is intended to be complete in regard to workers engaged in research, since the former list of technical workers was particularly useful to research workers, both within and outside the Department, in establishing and maintaining individual contacts with other research workers.

The second part gives the field activities of the Department by States, cities, and towns.

OFFICE OF THE SECRETARY

The Secretary of Agriculture is charged with the work of promoting agriculture in its broadest sense. He exercises general supervision and control over the affairs of the Department and formulates and establishes the general policies to be pursued by its various branches. The general administrative staff of the Department under the Office of the Secretary includes, in addition to the Secretary's immediate office, the offices of the Under Secretary, Assistant Secretary, Coordinator of Land-Use Planning, and the Solicitor; and the Directors of Research, Extension Work, Information, Personnel, and Finance. The Under Secretary and Assistant Secretary assist the Secretary in general policy formation, in important public and official contacts, and act for the Secretary in his absence. The five directors, the Coordinator of Land-Use Planning, and the Solicitor report directly to the Secretary, and each has general supervision over the work of the Department of the type which the title of his position implies.

OFFICE OF LAND USE COORDINATION

The Office of Land Use Coordination directs the coordination of land-use planning, land policy, and land-survey activities as they relate to the work of the Department as a whole, including clearance of land-acquisition projects, general supervision of the Department's flood-control program, establishment of uniform standards for surveys relating to land use, and clearance of proposed survey projects; representation of the Department on the National Resources Committee and in other interdepartmental activities relating to land use; cooperation with the Director of Research and chiefs of bureaus in coordinating land-use research with the survey and planning work; and cooperation with heads of action agencies in coordinating basic land-use policies and programs.

M. S. Eisenhower, B. S., *Coordinator.*

OFFICE OF PERSONNEL

The Office of Personnel has general direction and supervision of the personnel, salary classification, organization, placement, safety work, and related operations of the Department as a whole. It conducts the business of the Department with the Civil Service Commission and, when personnel matters are concerned, with other agencies doing business with the Department of Agriculture.

OFFICE OF EXPERIMENT STATIONS

The Office of Experiment Stations administers Federal funds provided by the Hatch, Adams, Purnell, and supplementary acts, and the Bankhead-Jones Act for the support of research in agriculture and home economics by experiment stations in the several States and Alaska, Hawaii, and Puerto Rico, and has immediate supervision of the experiment stations of the Department of Agriculture in Hawaii and Puerto Rico. It examines in detail the work and expenditures of the State experiment stations to ascertain whether the Federal funds for their support are used and accounted for in accordance with the Federal acts and rulings, and reports annually on the work and expenditures of the experiment stations, as required by law.

The Office aids in coordinating the research work of the Department of Agriculture and in coordinating the research work of the Department with that of the State, Alaskan, Hawaiian, and Puerto Rican agricultural colleges and experiment stations. It collects and disseminates information and gives such advice and assistance as will best promote the efficiency of the stations and the effective coordination of their work with that of the Department, and issues the Experiment Station Record, which gives a comprehensive current review of progress and results of scientific research conducted by the stations and other agencies for the improvement of agriculture and rural life.

The Office is responsible for the administration of the Special Research Fund, Department of Agriculture, including the planning and coordination of the research program of the Department under this fund which is authorized by the Bankhead-Jones Act of June 29, 1935.

EXTENSION SERVICE

The Extension Service aids in making available the results of research and investigation in agriculture and home economics to those who can put the information into practice. It coordinates the extension activities of the bureaus of the Department and of the State agricultural colleges and deals with emergency situations involving Department assistance to farmers. It represents the Department in the conduct of cooperative extension work in agriculture and home economics by the State agricultural colleges and the Department under the Smith-Lever, Capper-Ketcham, Bankhead-Jones, and supplementary acts of Congress. Each of the 48 States, the Territories of Hawaii, Alaska, and Puerto Rico, has a State director of extension who represents jointly the Department and the State agricultural college in the administration of extension work. In each State the organization consists of a State administrative and supervisory staff with headquarters in most cases at the State agricultural college, and county agricultural agents, county home demonstration agents, and county club agents, who have their offices usually in the county seats. The distinguishing feature of extension teaching is the field demonstration, although other educational methods are also utilized to teach the best farm and home practices to farm men, women, and boys and girls. The Extension Service also has charge of the preparation, installation, and display of agricultural exhibits at State, interstate, and international fairs and of the motion-picture activities of the Department.

OFFICE OF INFORMATION

The Office of Information supervises the expenditure of the appropriations for printing and binding for the Department; supervises all editing, illustrating, printing, and distribution of publications; and maintains an Addressing, Duplicating, and Mailing Section to serve the various Bureaus of the Department. The Office serves as a departmental clearing-house for information prepared for the press as a result of the research, regulatory, conservation, service, and action programs of the Department; it correlates information on the results of specialized work in diverse lines, and presents facts in forms most practical for use by farmers and the general public. The Office also furnishes daily, through radio stations in all parts of the United States, authentic information of practical use to farmers and others concerning the discoveries made by the Department and the farm practices recommended by it; and answers by radio questions in all fields of agriculture and home economics.

LIBRARY

The Department Library, with its branch libraries in the various bureaus, contains approximately 275,000 volumes on agriculture and the related sciences, technology, and economics and receives currently 4,500 periodicals. A list of the periodicals currently received in the Library has recently been published as Miscellaneous Publication No. 245.

The dictionary card catalog of the main Library, containing more than a half million cards, is a record of the book resources of the whole Department. It is supplemented by several extensive special indexes which are maintained by the branch libraries in the various bureaus. These together form the most comprehensive bibliography of agriculture and the related sciences available in the United States. A series of bibliographical contributions is issued by the Library in mimeographed form, and a separate series of Agricultural Economics Bibliographies is issued by the Bureau of Agricultural Economics library. A brief list of the more important accessions to the Library is contained in the mimeographed series, Agricultural Library Notes, issued monthly by the Library. In addition, the following lists are issued currently by branch libraries in the various bureaus: Agricultural Economics Current Literature, compiled by the Bureau of Agricultural Economics library; Agricultural Engineering Current Literature, compiled by the Bureau of Agricultural Engineering library; Cotton Literature, compiled by Emily L. Day, library specialist in cotton marketing, Bureau of Agricultural Economics; Entomology Current Literature, compiled by the Bureau of Entomology and Plant Quarantine library; Forestry Current Literature, compiled by the Forest Service library; Highways Current Literature, compiled by the Bureau of Public Roads library; Plant Science Literature, compiled by the Bureau of Plant Industry library; and Soil Conservation Literature, compiled by the Soil Conservation Service library.

OFFICE OF THE SOLICITOR

The Office of the Solicitor is the law office of the Department, in compliance with a statute providing that "the legal work of the Department of Agriculture shall be performed under the supervision and direction of the solicitor" (5 U. S. C. A., sec. 518). Among the duties performed by the Office are: Advising the Secretary and other administrative officials on legal problems in connection with all phases of their duties; assisting in the preparation of proposed legislative bills, administrative rules and regulations, orders, and proclamations; drafting and examining contracts, deeds, leases, and other documents; examining evidence to determine whether there have been violations of acts administered by the Department and in proper cases recommending prosecution to the Attorney General; preparing pleadings and briefs in civil and criminal cases and equity proceedings involving the Department and laws administered by it, and cooperating with the Department of Justice in the handling of such litigation in the lower and appellate courts; representing the Department as counsel in hearings before the Secretary; handling the contacts of the Department with other governmental agencies in legal matters; conducting administrative hearings under various acts administered by the Department; prosecuting applications for patents by Department employees where the subject of the patent is used in departmental work; examining titles to land authorized for purchase or on which loans will be made by the Department; considering and recommending appropriate disposal of claims for damage to property of the United States in the custody of the Department and claims against the Government for damage arising from operations of the Department.

AGRICULTURAL ADJUSTMENT ADMINISTRATION

The Agricultural Adjustment Administration is established within the Department of Agriculture to carry out certain provisions of the Agricultural Adjustment Act approved May 12, 1933, as amended, certain provisions of the Soil Conservation and Domestic Allotment Act approved February 29, 1936, the Marketing Agreement Act of 1937, the Sugar Act of 1937, and other related legislation.

Under the Soil Conservation and Domestic Allotment Act the Secretary of Agriculture is empowered to encourage farm practices that protect and improve the soil, by making payments to producers who adopt specific soil-building practices or who increase the proportion of their land devoted to soil-benefiting crops by shifting from the production of intensively cultivated, soil-depleting crops.

In determining such payments, the Secretary of Agriculture is authorized to consider: (1) Producers' treatment or use of land for soil restoration or conservation, or erosion prevention; (2) changes in the use of their land; (3) that percentage of their normal production of one or more designated commodities that is equal to the normal percentage of the national production of those commodities used for domestic consumption; or (4) any combination of these considerations.

The Soil Conservation and Domestic Allotment Act authorizes the appropriation of not more than \$500,000,000 annually for carrying out the purposes of the act, and the Secretary of Agriculture is authorized to use the organization and personnel of the Agricultural Adjustment Administration to effectuate those purposes.

The Marketing Agreement Act of 1937 authorizes the Secretary of Agriculture to enter into marketing agreements with processors and handlers of certain agricultural commodities, and with producers and

associations of producers of these commodities, such agreements being designed to stabilize and improve the market conditions of the commodities concerned and to increase the returns to their producers, by regulating the flow of the products in commerce with foreign nations and among the States, and by other methods. Under certain conditions the Secretary is empowered to issue orders supplementing the marketing agreements. Under section 32 of the act of August 24, 1935 (Public, No. 320), funds are provided and authority is given for removing burdensome surpluses of agricultural commodities from ordinary market channels, for encouraging and stimulating domestic and foreign consumption of these commodities, and for making payments to producers in connection with the production of that part of any agricultural commodity required for domestic consumption.

BUREAU OF AGRICULTURAL ECONOMICS

The Bureau of Agricultural Economics conducts studies of the economics of production and marketing, farm organization, farm financial relations, farm labor, land economics, and the problems of rural life. It acquires and disseminates current information regarding the marketing and distribution of farm products; collects, compiles, summarizes, interprets, and makes public statistical data relating to agricultural production, including crop and livestock estimates, and estimates of the grade and staple length of the cotton crop and carry-over; studies marketing methods and conditions, and standardization, transportation, handling, financing, utilization, and storage of

agricultural products; prepares and publishes reports on the outlook for farm products; and issues quarterly reports on stocks of leaf tobacco.

Reports are issued which furnish information on the supply, commercial movement, disposition, and market prices of fruits and vegetables, livestock and livestock products, dairy and poultry products, grain, hay, feed, seed, cotton, tobacco, and other products. Information is obtained and published also with regard to the supply of and demand for agricultural products in foreign countries. A market inspection service is available in many of the principal producing areas and receiving centers on fruits and vegetables, hay, beans, and other products, and a grading service is conducted on dairy and poultry products, canned fruits and vegetables, meats, tobacco, cottonseed, and rice.

Regulatory work is performed in connection with the enforcement of the Cotton Futures Act, Cotton Standards Act, Grain Standards Act, Standard Container Act, Standard Hamper Act, Produce Agency Act, Perishable Agricultural Commodities Act, the Tobacco Inspection Act, and the administration of the Warehouse Act.

The Chief of the Bureau has been designated by the Secretary of Agriculture to administer the land-conservation and land-utilization program provided for under title III of the Bankhead-Jones Farm Tenant Act.

BUREAU OF AGRICULTURAL ENGINEERING

The Bureau of Agricultural Engineering conducts investigations of farm irrigation, farm drainage, farm machinery, farm buildings, and other engineering phases of agriculture. The investigations include studies of the hydraulics of flow in open watercourses and in closed conduits; organization, administration, and operation of community enterprises for irrigation and drainage; water requirements for irrigating various crops; snow surveys for the purpose of predicting water supplies available for irrigation; methods of storing water on the surface and underground; land-clearing methods; resistance of concrete structures and drain tile to acids and alkalis; planning farm operations, equipment, and lay-out for more efficient production; mechanical equipment for producing and processing farm products, including plowing, planting, cultivating and harvesting, fertilizer placement, hay drying, cotton ginning, and control of insect pests; and the planning and construction of farm buildings, including heating, lighting, insulation, and sanitation of farmhouses; and crop storages,

animal shelters, and fencing. Service is rendered other bureaus of the Department in the design and construction of engineering structures and the purchase of engineering equipment.

BUREAU OF ANIMAL INDUSTRY

The Bureau of Animal Industry is primarily concerned with the protection and development of the livestock and meat industries of the United States. It conducts scientific investigations of the causes, prevention, and treatment of diseases of domestic animals; investigates the existence of communicable diseases of such animals, and aids in their control or eradication; and carries on investigations and experiments in animal husbandry and in the feeding and breeding of animals. It also is charged with the administration of the Meat Inspection Act, the Animal Quarantine Acts, the 28-Hour Law, the Diseased Animal Transportation Acts, the Virus-Serum-Toxin Act, and the act relating to the supervision of the business in interstate commerce of packers, designated public stockyard markets, and commission men, traders, and other agencies operating in the public

stockyard markets of the United States, and of licensees engaged in handling live poultry at certain designated markets.

 Paul B. Zumbro, B. S., *Sr. Poultry Coordinator (Nat. Poultry Improvement Plan).*
 Joseph P. Quinn, A. B., *Poultry Genet.*
 Melvin W. Buster, B. S., *Poultry Husb. (Nat. Poultry Improvement Plan).*

Poultry—Continued.

Alfred R. Lee, B. S., *Assoc. Poultry Husb.*
 Stanley J. Marsden, B. S., *Assoc. Poultry Husb.*
 Albert B. Godfrey, B. S., *Asst. Poultry Husb. (Biometrics).*
 Walter A. Hendricks, A. B., *Asst. Poultry Husb. (Biometrics).*
 Marlow W. Olsen, M. S., *Asst. Poultry Husb. (Progeny Testing).*
 Edmund H. McNally, B. S., *Asst. Biol. (Poultry).*
 Wm. H. Burrows, *Med. Tech. (Vet.)*
 W. Gordon Helsel, B. S., *Jr. Biol.*
 Sheppard K. Haynes, *Chief Sci. Aide.*
 Maurice E. Kelley, *Sr. Poultry Aide.*

Genetics:

Wm. V. Lambert, Ph. D., *Sr. An. Husb., in charge.*
 Lewis W. Butz, Ph. D., *Biochem.*
 Walker M. Dawson, Ph. D., *Assoc. An. Husb.*
 Orson N. Eaton, Ph. D., *Assoc. An. Husb.*
 Ralph W. Phillips, Ph. D., *Assoc. An. Husb.*
 NOTE.—Workers in genetics are listed under various sections.

Meat:

Orville G. Hankins, B. S., *Sr. An. Husb., in charge.*
 Kenneth F. Warner, M. S., *Sr. Sci. (Ext. Meat Spec.) (in coop. with Div. of Coop. Ext.).*
 Nicholas G. Barbella, M. S., *Assoc. Biochem.*
 A. Kirk Besley, Ph. D., *Assoc. Bact.*
 Richard L. Hiner, M. A., *Asst. An. Husb.*

Extension:

Clifton D. Lowe, D. V. M., *Sr. Ext. An. Husb. (in coop. with Div. of Coop. Ext.).*
 Harlan L. Shrader, B. S., *Sr. Ext. Poultry Husb. (in coop. with Div. of Coop. Ext.).*

FIELD STATIONS:

NOTE.—Work in animal husbandry investigations conducted cooperatively by the Animal Husbandry and Animal Nutrition Divisions.

Animal Husbandry Expt. Sta., Beltsville, Md. (beef and dual-purpose cattle, swine, sheep, goat, poultry, horse, m-at, milk, and animal fiber invest., supervised by chiefs of divisions and heads of respective sections):

Carl G. Potts, B. S., *An. Husb., in charge.*
 NOTE.—Technical workers assigned to Beltsville are listed under various sections.
 Arizona—Glendale (Southwest Poultry Expt. Sta.):

B. W. Heywang, B. S. A., *Assoc. Poultry Husb., in charge.*

R. B. Morgan, B. S., *Jr. Poultry Husb.*

Florida—Brooksville (Chinsegut Hill Sanctuary; beef and dual-purpose cattle and poultry invest. in coop. with Univ. of Fla.):

W. F. Ward, M. S., *Agt. in An. Husb., in charge.*

M. E. Hammond, *Agt. in An. Husb. (coop.).*

NOTE.—Cooperation is maintained at branch stations at Quincy and other locations.

Georgia:

Athens (horse and mule invest. in coop. with Ga. State Coll. of Agri.).

Tifton (beef-cattle and swine invest. in coop. with Bur. of Pl. Indus. and Ga. Coastal Plain Expt. Sta.):

B. L. Southwell, M. S. A., *Agt. in An. Husb. (coop.).*

S. H. Starr, B. S., *Agt. in An. Husb. (coop.).*

J. G. Whigham, *Agt. in An. Husb. (coop.).*

Idaho—Dubois:

U. S. D. A. Sheep Fld. Sta.:

Stanley L. Smith, B. S., *An. Husb., in charge*

John A. Stoehr, B. S., *Assoc. An. Husb.*

Claire E. Terrill, Ph. D., *Assoc. An. Husb.*

U. S. D. A. Reg. Sheep Breeding Lab.

Animal Husbandry, etc.—Continued.

- Iowa—Ames (Regional Swine Breeding Lab.):
 William A. Craft, Ph. D., *Prin. An. Husb., Dir.*
 Arthur E. Mollin, Jr. *An. Husb.*
 Cletus F. Reinmiller, Jr. *An. Husb.*
 Jay L. Lush, Ph. D., *Agt. in An. Husb. (coop.)*.
 Wesley A. Dewing, *Agt. in An. Husb. (coop.)*.
 Nicholas R. Frey, *Agt. in An. Husb. (coop.)*.
 Clyde L. Glazebrook, *Agt. in An. Husb. (coop.)*.
 Wray E. Hammond, *Agt. in An. Husb. (coop.)*.
 Archie L. Johnson, *Agt. in An. Husb. (coop.)*.
 Harry McMahon, *Agt. in An. Husb. (coop.)*.
 Farley F. Nagle, *Agt. in An. Husb. (coop.)*.
 Llewellyn A. Reese, *Agt. in An. Husb. (coop.)*.
 Riley W. Richie, *Agt. in An. Husb. (coop.)*.
 John N. Schick, *Agt. in An. Husb. (coop.)*.
 Charles B. Gee, *Agt. in An. Husb. (coop.)*.
 (Columbia, Mo.)
 Edward E. Grooms, *Agt. in An. Husb. (coop.)*.
 (Columbia, Mo.)
 Luther A. Weaver, B. S., *Agt. in An. Husb. (coop.)*, (Columbia, Mo.)
 Marvel L. Baker, *Agt. in An. Husb. (coop.)*, (North Platte, Nebr.)
 George O. Grabbe, *Agt. in An. Husb. (coop.)*, (North Platte, Nebr.)
 Louisiana—Jeanerette (Iberia Livestock Expt. Farm; beef-cattle, pasture, and forage-crop invest., in coop. with Bur. of Pl. Indus., Bur. of Dairy Indus., and La. Expt. Sta.):
 A. O. Rhoad, M. S., *An. Husb., in charge.*
 NOTE.—Technical workers in dairying, pasture, and forage-crop production are listed under their respective bureaus.
 Missouri:
 Columbia (physiology of reproduction studies, in coop. with Mo. Expt. Sta.):
 Fred F. McKenzie, M. A., *Agt. in An. Husb. (coop.)*, *in charge.*
 Frederick N. Andrews, M. S., *Agt. in An. Husb. (coop.)*.
 Virgene Warbritton, Ph. D., *Agt. in An. Husb. (coop.)*.
 Grain Valley (beef and dual-purpose cattle and pasture invest. in coop. with Bur. of Pl. Indus. and Mo. Expt. Sta.):
 M. W. Hazen, M. S., Jr. *An. Husb. (coop.)*.
 Montana—Miles City (U. S. Range Livestock Expt. Sta.; beef-cattle, swine, horse, and range invest., in coop. with Mont. Expt. Sta.):
 J. R. Quesenberry, B. S. A., M. S., *Sr. An. Husb., in charge.*
 A. L. Baker, B. S., *Asst. An. Husb.*
 R. E. Hutton, B. S. A., *Asst. An. Husb.*
 E. B. Osborn, D. V. M., M. S., *Jr. An. Husb.*
 Warren O. Hamel, *Agt. in An. Husb. (coop.)*.
 New Mexico—Fort Wingate (Southwestern Range and Sheep Breeding Lab., in coop. with Dept. of the Interior):
 J. M. Cooper, B. S., (Dept. of Interior) *Collab. without compensation, in charge.*
 James O. Grandstaff, B. S., *Asst. An. Fiber Technol.*
 North Carolina—Raleigh (beef-cattle invest. in coop. with N. C. State Coll. of Agri.):
 E. H. Hostetler, B. S. A., M. S., *Agt. in An. Husb. (coop.)*.
 South Carolina (beef-cattle, swine, and pasture invest. in coop. with Clemson Agri. Coll.):
 Clemson College:
 E. D. Kyzer, B. S., *Agt. in An. Husb. (coop.)*.
 Summerville:
 R. L. Jones, *Agt. (coop.)*.
 South Dakota—Ardmore (beef-cattle and range invest.):
 Verner I. Clark, *Sci. Aide, acting in charge.*
 Texas:
 Big Spring (beef-cattle and sheep invest. in coop. with Bur. of Pl. Indus. and Tex. Expt. Sta.):
 Fred E. Keating, B. S., *Assoc. Agron. (Bur. Pl. Indus.) in charge.*
 Jot Smyth, Jr., B. S., *Agt. in An. Husb. (coop.)*.
 College Station (beef-cattle and sheep invest. in coop. with Tex. A. and M. Coll. and Tex. Agr. Expt. Sta.):
 J. M. Jones, M. A., *Consult. An. Husb., Chief Div. of Range An. Husb., Tex. Agr. Expt. Sta. in charge.*

Animal Husbandry, etc.—Continued.

- Texas—Continued.
 Falfurrias (mineral deficiencies invest. in coop. with Tex. Agr. Expt. Sta.):
 Lowell H. Tash, B. S. A., *Asst. An. Husb.*
 NOTE.—Cooperation is maintained at the Texas State branch stations.
 Vermont—Middlebury (U. S. Morgan Horse Farm; horse, sheep, dual-purpose cattle, and pasture invest.):
 John O. Williams, B. S. A., *Assoc. An. Husb., in charge.*
 West Virginia—Lewisburg (beef-cattle invest. in coop. with W. Va. Expt. Sta.):
 R. H. Tuckwiller, B. S., *Agt. in An. Husb., in charge.*

ANIMAL NUTRITION DIVISION

Paul E. Howe, Ph.D., *Prin. Chem., Chief. (Asst. Chief of Bur.)*

General Nutrition:

- Ned R. Ellis, M. S., *Sr. Chem., in charge.*
 Russell E. Davis, Ph.D., *Asst. Biochem.*
 R. W. Riemenschneider, M. S., *Asst. Chem.*
 John M. Spadola, A. M., *Jr. Chem.*
 Charles A. Cabell, A. B., *Jr. Chem.*
 Gladys Leavell, Ph. D., *Jr. Chem.*
 Wilbur R. Kauffman, A. B., *Jr. Chem.*

Poultry Nutrition:

- Harry W. Titus, Ph.D., *Sr. Biol. Chem., in charge.*
 Harold M. Harshaw, Ph.D., *Asst. Biochem.*
 Ralph B. Nestler, B. S., *Asst. Biol. (Poultry)*.
 David Miller, B. S., Ma. A., *Asst. Biochem.*
 John C. Hammond, B. S., *Asst. Biol.*
 Charles A. Denton, B. S., *Jr. Chem.*
 Harold E. McClure, B. Ch. E., *Jr. Chem.*

Calorimeter Investigations:

- Harry W. Titus, Ph.D., *Sr. Biol. Chem., in charge.*
 Herbert G. Barott, E. E., *Poultry Technol. (physics of incubation)*.
 Emma M. Pringle,* *Asst. Sci. Aide (physics of incubation)*.

Physiological Chemistry:

Imogene P. Earle,* Ph.D., *Assoc. Biochem.*

FIELD STATIONS:

NOTE.—Work in animal-nutrition investigations conducted cooperatively with the An. Husb. Div. at the field stations listed under that Division.

BIOCHEMICAL DIVISION

Robert M. Chapin, B. A., *Prin. Biochem. Chief.*
 Robert R. Henley, M. S., *Sr. Biochem., Asst. Chief.*

Hog Cholera Investigations (Washington, D. C.):

Wilmer C. Powick, B. S., *Sr. Biochem.*

FIELD STATION:

Iowa—Ames:

- Charles N. McBryde, Ph.D., M. D., *Bact., in charge.*
 Clarence G. Cole, D. V. M., *Asst. Vet.*

Dips, Disinfectants, and Preservatives for Biological Products:

- Frank W. Tilley, A. B., M. D., *Sr. Bact.*
 Percy W. LeDuc, A. B., *Assoc. Chem.*
 David Bandel, *Minor Sci. Helper.*

Meat Inspection Research:

- Value of different tissues for food:
 Ralph Hoagland, B. Agr., *Sr. Biochem.*
 George G. Snider, A. B., *Sr. Sci. Aide.*

Investigations of Allergic Tests for Disease, and Production of Tuberculin:

- Angus D. MacDonald, D. V. M., *Assoc. Vet.*
 Albert M. West, B. S., *Asst. Bact.*
 Joseph W. Etheridge, D. V. M., *Asst. Vet.*

Investigations of Agglutination Tests for Disease, and Control of Commercial Antigens:

- Jacob M. Schaffer, M. S., *Sr. Chem.*
 Frank D. Bradley, Jr. *Biochem.*
 William Galler, *Minor Sci. Helper.*

FIELD INSPECTION DIVISION

S. O. Fladness, D. V. M., *Prin. Vet., Chief.*
T. W. Cole, D. V. M., *Sr. Vet., Asst. Chief.*

International Inspection and Quarantine:

FIELD STATIONS:

Arizona—Phoenix:

A. R. Zumwalt, D. V. M., *Assoc. Vet., Insp. in charge.*

California:

Calxico:

J. C. Pace, D. V. S., *Asst. Vet., Insp. in charge.*

Los Angeles:

A. N. McGregor, D. V. M., *Vet., Insp. in charge.*

San Diego:

L. C. Butterfield, M. D. C., *Assoc. Vet., Insp. in charge.*

San Francisco:

Meier Brodner, D. V. S., *Vet., Insp. in charge.*

England—London:

T. P. White, D. V. S., *Sr. Vet., Insp. in charge.*

Florida—Jacksonville:

T. H. Applewhite, D. V. M., *Assoc. Vet., Insp. in charge.*

Louisiana—New Orleans:

C. H. Horcher, D. V. M., *Assoc. Vet., Insp. in charge.*

Maine:

Calais:

R. D. Hyde, D. V. M., *Asst. Vet., Insp. in charge.*

Houlton:

I. H. Kaufman, D. V. M., *Asst. Vet., Insp. in charge.*

Portland:

D. D. Callahan, *Prin. Lay Insp., in charge.*

Maryland—Baltimore:

E. D. Kennedy, D. V. S., *Sr. Vet., Insp. in charge.*

Massachusetts—Boston:

R. F. Vermilya, D. V. M., *Sr. Vet., Insp. in charge.*

Michigan—Detroit:

C. E. Mootz, D. V. M., *Vet., Insp. in charge.*

Montana—Helena:

G. W. Cronen, D. V. M., *Assoc. Vet., Insp. in charge.*

New Jersey—Clifton:

J. O. Wilson, D. V. M., *Sr. Vet., Insp. in charge.*

New York:

Albany:

J. J. Martin, D. V. M., *Assoc. Vet. Insp. in charge.*

Buffalo:

B. J. Stockler, D. V. M., *Sr. Vet., Insp. in charge.*

New York:

J. O. Wilson, D. V. M., *Sr. Vet., Insp. in charge.*

Ogdensburg:

C. O. Benson, D. V. S., *Asst. Vet., Insp. in charge.*

Rouses Point:

D. G. Shumway, V. D. M., *Asst. Vet., Insp. in charge.*

Watertown:

L. N. Dodge, D. V. M., *Agt., Insp. in charge.*

North Dakota—Bismarck:

H. H. Cohenour, M. D. V., *Assoc. Vet., Insp. in charge.*

Oregon—Portland:

P. P. Taylor, D. V. M., *Assoc. Vet., Insp. in charge.*

Pennsylvania—Philadelphia:

C. J. Millen, D. V. M., *Sr. Vet., Insp. in charge.*

Puerto Rico—San Juan:

S. H. Still, D. V. M., *Vet. (coop.), Insp. in charge.*

International Inspection and Quarantine—Contd.
FIELD HEADQUARTERS—Continued.

Texas:

El Paso:

S. V. Ewers, D. V. S., *Assoc. Vet., Insp. in charge.*

Houston:

D. B. Strickler, D. V. M., *Assoc. Vet., Insp. in charge.*

San Antonio:

Wm. Thompson, M. D. C., *Assoc. Vet., Insp. in charge.*

W. C. Dye, D. V. S., *Asst. Vet.*

Vermont:

Newport:

J. E. Spindler, D. V. M., *Asst. Vet., Insp. in charge.*

St. Albans:

BUREAU OF BIOLOGICAL SURVEY

The Bureau of Biological Survey, the wildlife service of the Federal Government, studies the habits, needs, and uses of the Nation's resources in wild mammals, birds, reptiles, and amphibians. Based on this research are its functions in wildlife management, including the preservation and propagation of natural food and cover plants and restoration of natural habitat, control of injurious animals, and experiments in propagating and perpetuating valuable species, as on game and fur farms, on bird refuges and game preserves, and on forests and elsewhere in their natural ranges.

The Bureau's organization embraces four major divisions that are concerned, respectively, with research, management, refuge land acquisition, and waterfowl restoration; and two other divisions, one for general administration, the other for disseminating information developed through wildlife research and management and facilitating law enforcement by acquainting the public with the nature and need of regulatory action.

Established in 1885 for research on the relation of wildlife to farming, the Survey has since been charged with wildlife protection by the Lacey Act of 1900, by the Migratory Bird Treaty Act of 1918, and by other Federal laws; with refuge administration and restoration, by Executive orders beginning in 1903 and by the Migratory Bird Conservation Act of 1929; and with cooperative control of species injurious to agriculture and stock raising, in 1915, and subsequently, by congressional legislation. The early functions in economic investigations and game protection have been expanded to meet new conditions and to care for added responsibilities in cooperating with States and with farmers', sportsmen's, and other organizations interested in or affected by wildlife.

Research by the Survey includes investigations of the life habits, geographic distribution, and migration of species and their ecology and habitat; studies of their food requirements in the wild and as influenced by the extension of agricultural and other economic interests; experiments in fur farming; and investigations of wildlife diseases as affecting fur, game, and livestock production and human health. The Bureau's wildlife management, in the broad sense, embraces refuge acquisition, restoration, development, patrol, and maintenance; law enforcement, including the drafting of regulations for carrying out international obligations in the conservation of migratory species and the regulation of interstate shipment of wild animals and their importation from abroad; cooperative work with States and other organizations for the conservation of valuable species

and for the control of predators, rodents, and other forms where they do damage; and through the Alaska Game Commission, related management of the wildlife resources of the Territory.

BUREAU OF CHEMISTRY AND SOILS

The Bureau of Chemistry and Soils is a research organization engaged in studies of soils and fertilizers and in the application of chemistry, physics, and other sciences to the improvement of agriculture.

Under the broad subject of the application of the science of chemistry to the improvement of agriculture, the Bureau is engaged in investigations concerning the technology, manufacture, utilization, and preservation, including freezing, of agricultural products and by-products; in the biological, chemical, physical, microscopical, and technological investigation of foods, feeds, drugs, and substances used in the manufacture thereof, including studies of their physiological effects on the human organism; experiments on the utilization of agricultural and other raw materials for coloring, medicinal, and technical purposes; development of improved processes in the production of rosin and turpentine; and development of means to prevent farm fires and dust explosions.

The Bureau is engaged in the classification and mapping of the soils of the United States, studies of the agricultural value of soils,

² Cooperative protector, Bur. Reclamation employee.

³ Cooperative protector.

their characteristics in relation to productiveness, their origin and development, and their chemical and mechanical compositions.

The Bureau is engaged in studies of the fertilizer resources of the country and methods of manufacturing fertilizer materials, including nitrogen and its fixation, phosphates, potash, concentrated fertilizers, organic waste products, and miscellaneous soil amendments.

COMMODITY EXCHANGE ADMINISTRATION

The Commodity Exchange Administration is charged with the enforcement of the Commodity Exchange Act (Grain Futures Act of 1922 as amended June 15, 1936). This involves Federal regulation of all commodity exchanges which conduct a futures market in any of the following commodities: Wheat, cotton, corn, oats, barley, rye, rice, flaxseed, grain sorghums, mill feeds, butter, eggs, and potatoes. Such exchanges are required to qualify under the act as contract markets and to be so designated by the Secretary of Agriculture.

This Administration is engaged in the continuous and systematic observance of future trading and speculative activity in the above-named commodities with a view to: (1) Prevent manipulation and corners and excessive speculation causing unreasonable and unnatural price fluctuations, (2) prevent the dissemination of false or misleading crop and market information affecting prices, (3) prevent cheating, fraud, and deceit in connection with the execution of customers' orders, (4) insure proper treatment and handling by commission firms of moneys belonging to their customers, (5) prevent bucketing and fictitious transactions, and (6) compel registration by futures commission merchants and floor brokers handling orders for others. Reports are compiled and released daily concerning volume of trading and amount of open futures contracts in various commodities; complaints are investigated, and general studies are made concerning the operations of contract markets, which are published from time to time for the information of Congress and the general public. The Administration cooperates with other governmental agencies in obtaining factual data and in providing information of interest and value in connection with supply and demand factors affecting prices.

BUREAU OF DAIRY INDUSTRY

The Bureau of Dairy Industry conducts research in the breeding, feeding, and management of dairy cattle to promote efficiency in the production of milk and to improve its nutritive and sanitary quality. It cooperates with the State dairy extension services in the establishment of approved dairy practices through the medium of dairy herd-improvement associations. It maintains a record of the identity and individual performance of all cows and herd sires enrolled in these associations to help dairymen find superior germ plasm for breeding better producing herds. It conducts scientific studies to develop sanitary methods of handling milk on the farm, in transit, and in dairy plants and to promote efficiency in dairy-plant equipment, arrangement, and operation. Also, it studies the bacteriology and chemistry of milk and its products, and problems in manufacture of dairy products and byproducts; assists in establishing new products and methods in dairy plants; and inspects renovated-butter factories.

The Bureau of Entomology and Plant Quarantine is concerned with investigations on insects and their economic relations; the development and application of methods for their eradication or control; the carrying out, in cooperation with the States, of necessary work to prevent the spread and to control or eradicate insect pests and plant diseases that have gained more or less limited foothold in the United States; and the utilization of those species that are beneficial. These activities include investigations on and direction of control campaigns against the species injurious to agriculture, horticulture, and arboriculture; investigations on the species affecting the health of man and animals, or infesting human habitations or injurious to industries; the culture and use of honeybees and beekeeping practices; investigations on the natural enemies of insects and plant pests and the possibility of using these as aids for control; the taxonomy, anatomy, physiology, and responses of insects; chemical and other problems relating to the composition, action, and application of insecticides; and the development of methods of manufacturing insecticides and materials used with them.

To aid in carrying out these assignments and to protect agriculture from plant pests and diseases, the Bureau is responsible for the enforcement of the following acts and restrictive orders promulgated thereunder: The Plant Quarantine Act of 1912, as amended; the Insect Pest

Act of 1905; the act of 1922 governing the importation of adult honeybees; the act providing for the Mexican border inspection and control service; the act providing for export certification to meet sanitary requirements of foreign countries for plants and plant products; the Terminal Inspection Act of 1915, as amended (in cooperation with the Post Office Department).

E. J. Udine, B. S., *Jr. Ent.*

Texas—Beaumont (Under direction of Sr. Ent. in charge of Manhattan, Kans., lab.; sugar cane moth borer in corn; insect pests of stored grain):

A. I. Balzer, M. S., *Asst. Ent.*, in charge.

Utah—Salt Lake City (alfalfa weevil):

J. C. Hamlin, Ph. D., *Sr. Ent.*, in charge.

Ralph Bunn, A. B., *Jr. Ent.*

L. J. Jones, M. A., *Jr. Ent.*

W. C. McDuffie, B. S., *Jr. Ent.*

Virginia—Arlington (corn earworm, leafhopper injury to legumes, plant disease transmission by insects):

F. W. Poos, Ph. D., *Sr. Ent.*, in charge.

F. F. Dicke, B. S., *Asst. Ent.*

J. W. Scrivener, *Ag't.*

Nancy H. Wheeler, *Asst. Sci. Aide.*

Wisconsin—Madison (white grub):

T. R. Chamberlin, B. S., *Assoc. Ent.*, in charge.

Lee Seaton, *Asst. Sci. Aide.*

Sugarcane and Rice Insects (Cereal and Forage Insects):**FIELD LABORATORIES:**

Louisiana—Crowley (Under direction of Ent. in charge of Houma, La., lab.; insect pests of growing and stored rice):

W. A. Douglas, B. S., *Jr. Ent.*, in charge.

Houma (Insect transmission of sugarcane disease; soil animalcula affecting sugarcane, sugarcane beetle, sugarcane moth borer and its parasites, sugarcane mealybug, sugarcane wireworms):

J. W. Ingram, M. S., *Ent.*, in charge.

T. E. Holloway, B. S., *Asst. Ent.*

E. K. Bynum, A. M., M. S., *Asst. Ent.*

W. E. Haley, *Chief Sci. Aide.*

Jeanerette (Under the direction of the Ent. in charge of the Houma, La., lab.; *Trichogramma minutum* as a parasite of the sugarcane moth borer):

H. A. Jaynes, B. S., *Assoc. Ent.*, in charge.

European Corn Borer:**FIELD LABORATORIES:**

Connecticut—New Haven (Under the direction of the Sr. Ent. in charge of Toledo, Ohio, lab.; insecticidal control of the European corn borer; corn earworm):

C. H. Batchelder, Ph. D., *Assoc. Ent.*, in charge.

G. W. Barber, D. Sc., *Assoc. Ent.*

K. D. Arbutnot, B. S., *Jr. Ent.*

New Jersey—Moorestown (Under the direction of the Sr. Ent. in charge of Toledo, Ohio, lab.; European corn borer and its parasites):

C. A. Clark, B. S., *Assoc. Ent.*, in charge.

E. D. Burgess, B. S., *Jr. Ent.*

Ohio—Toledo (European corn borer, corn earworm, insect vectors of Stewart's disease):

W. A. Baker, B. S., *Sr. Ent.*, in charge.

L. H. Patch, B. S., *Assoc. Ent.*

W. G. Bradley, B. S., *Asst. Ent.*

A. M. Vance, M. S., *Assoc. Ent.*

Morris Schlossberg, M. S., *Asst. Ent.*

E. W. Beck, A. B., *Jr. Ent.*

G. T. Rottger, B. S., *Jr. Ent.*

Ralph Mathes, M. S., *Jr. Ent.*

D. D. Questel, B. S., *Jr. Ent.*

European Corn Borer—Continued.**FIELD LABORATORIES—Continued.**

Virginia—Onley (Under the direction of the Sr.

Ent. in charge of Toledo, Ohio, lab.; European corn borer):

D. W. Jones, B. S., *Ent.*, in charge.

DIVISION OF CONTROL INVESTIGATIONS

Lon A. Hawkins, Ph. D., *Prin. Physiol.*, in charge.

J. Franklin Yeager, Ph. D., *Sr. Ent.*

A. Gordon Galloway, *Technol.*

FIELD LABORATORIES:

Florida—Sanford:

Millard C. Swingle, M. S., *Assoc. Ent.*

James B. Gahan, B. S., M. S., *Jr. Ent.*

Arthur M. Phillips, B. S., *Jr. Ent.*

Maryland—Beltsville:

J. Franklin Yeager, Jr., Ph. D., *Sr. Ent.*

Norman E. McIndoo, Ph. D., *Sr. Ent.*

Edward R. McGovran, Ph. D., *Ent.*

Frank H. Babers, M. S., *Assoc. Biochem.*

Alpha C. Johnson, *Assoc. Pl. Quar. Insp.*

Jacob W. Bulger, Ph. D., *Assoc. Ent.*

Henry H. Richardson, Ph. D., *Asst. Ent.*

Paul A. Woke, Ph. D., *Asst. Ent.*

William N. Sullivan, B. S., *Jr. Ent.*

Sam C. Munson, B. Sc., M. S., *Jr. Ent.*

Abby H. Casanges, *Asst. Sci. Aide.*

New Jersey—Moorestown:

Erskine M. Livingstone, B. S., *Asst. Ent.*

DIVISION OF COTTON INSECT INVESTIGATIONS

R. W. Harned, B. S. A., *Prin. Ent.*, in charge.

U. C. Loftin, M. S., *Sr. Ent.*

FIELD LABORATORIES:

Arizona:

Mesa (substa. of Tucson) (Apr. to Dec.):

T. C. Barber, B. S., *Asst. Ent.*

L. W. Sheets, *Asst. Fld. Aide.*

Tucson (Thurberia weevil, hemipterous insects of cotton, soil insects, insects in relation to cotton diseases):

T. P. Cassidy, B. S., *Ent.*, in charge.

W. A. Stevenson, B. S., *Jr. Ent.*

Dean Asquith, B. S., *Asst. Fld. Aide.*

Yuma (substation of Tucson) (Apr. to Dec.):

D. W. Clancy, M. A., *Fld. Asst.*

John M. Breazeale, M. S., *Asst. Fld. Aide.*

Florida—Gainesville (boll weevil):

J. T. Roy, Jr., *Fld. Aide.*

K. H. Smith, B. S., *Fld. Aide.*

G. H. Rainwater, *Asst. Fld. Aide.*

Georgia:

Tifton (bollweevil, miscellaneous cotton insects):

P. M. Gilmer, Ph. D., *Assoc. Ent.*, in charge.

P. A. Glick, M. S., *Asst. Ent.*

L. T. Graham, B. S., *Fld. Aide.*

Townsend (substation of Tifton):

K. P. Conradi, B. S., *Fld. Aide.*

Lake Park (substation of Tifton):

Wm. L. Lowry, B. S., *Fld. Aide.*

Louisiana—Tallulah (boll weevil, parasites of boll weevil, insecticides, miscellaneous cotton insects):

R. C. Gaines, B. S., *Ent.*, in charge.

M. T. Young, B. S., *Assoc. Ent.*

G. L. Smith, B. S., *Asst. Ent.*

G. L. Garrison, *Sr. Sci. Aide.*

A. L. Scales, *Under Biol. Aide.*

T. F. Henderson, B. S., *Fld. Aide.*

W. R. Stanley, B. S., *Fld. Aide.*

R. W. Goins, *Asst. Fld. Aide.*

C. A. Richmond, B. S., *Asst. Fld. Aide.*

G. C. Woodruff, M. S., *Asst. Fld. Aide.*

Mississippi:

State College (boll weevil, arsenical injury to soils):

F. H. Tucker, B. S., *Jr. Chem.*, in charge.

G. D. Green, B. S., *Fld. Aide.*

C. A. Henderson, B. S., *Fld. Aide.*

Stoneville (boll weevil, weevil-resistant characters of cotton):

E. W. Dunnam, Ph. D., *Ent.*, in charge.

J. C. Clark, B. S., *Jr. Ent.*

Calton Howell, *Asst. Fld. Aide.*

FIELD LABORATORIES—Continued.

South Carolina—Florence (boll weevil, root aphids, and miscellaneous insects of cotton):
 F. F. Bondy, B. S., *Asst. Ent.*, in charge.
 C. F. Rainwater, B. S., *Jr. Ent.*
 W. J. Moore, *Asst. Fld. Aide.*

Texas:

Brownsville (cotton perforator, flea hoppers, miscellaneous cotton insects—Dec. to Apr.):
 T. C. Barber, B. S., *Asst. Ent.*, in charge.

College Station (bollworm):

R. W. Moreland, B. S., *Asst. Ent.*, in charge.
 H. G. Johnston, Ph. D., *Fld. Asst.*
 A. I. Beavers, B. S., *Fld. Aide.*
 R. W. Strandtmann, M. S., *Asst. Fld. Aide.*

Port Lavaca (cotton flea hopper):

K. P. Ewing, B. S., *Asso. Ent.*, in charge.
 R. L. McGarr, B. S., *Jr. Ent.*
 D. H. Alexander, *Fld. Aide.*
 H. J. Crawford, M. S., *Asst. Fld. Aide.*
 C. R. Parenica, Jr., B. S., *Asst. Fld. Aide.*
 Carey Legett, Jr., *Asst. Fld. Aide.*
 F. D. Miner, *Asst. Fld. Aide.*

Presidio (pink bollworm):

A. J. Chapman, B. S., *Assoc. Ent.*, in charge.
 L. W. Noble, B. S., *Jr. Ent.*
 S. L. Calhoun, B. S., *Jr. Ent.*
 Wm. T. Hunt, M. S., *Jr. Pl. Quar. Insp.*
 H. S. Cavitt, B. S., *Ag.*
 M. H. Hughs, *Ag.*
 O. T. Robertson, *Asst. Fld. Aide.*
 S. W. Luke, *Asst. Fld. Aide.*
 F. W. Jackson, *Asst. Fld. Aide.*

Puerto Rico—Mayaguez (pink bollworm):
 L. C. Rife, M. A., *Jr. Ent.*, in charge.

DIVISION OF DOMESTIC PLANT QUARANTINES

(For which no separate units have been organized)
 B. M. Gaddis, *Prin. Pl. Quar. Admin.*, in charge.
 R. A. Sheals, B. S., *Sr. Pl. Quar. Insp.*

Phony Peach and Peach Mosaic:

GEN. FLD. HDQRS.:

Arkansas—Little Rock:
 A. E. Cavanagh, *Pl. Quar. Insp.*, in charge.
 C. H. Rothe, B. S., *Asst. Pl. Quar. Insp.*

DISTRICT HDQRS.:

California—San Bernardino:
 R. L. McClain, M. S., *Ag.*
 Colorado—Palisade (Colo. and Utah):
 M. A. Taylor, *Ag.*
 Georgia—Rossville (Ala., Ga., Tenn.):
 Claude Walton, *Ag.*
 Mississippi—State College (La., Miss.):
 T. D. Persons, *Ag.*
 New Mexico—Albuquerque (Ariz., N. Mex.):
 Max A. Sisson, B. S., *Ag.*
 South Carolina—Spartanburg (N. C., S. C.):
 R. W. Sanders, B. S., *Ag.*
 Texas—Arlington (Okla., Tex.):
 J. N. Rumph, *Ag.*

Sweetpotato Weevil:

GEN. FLD. HDQRS.:

Mississippi—Gulfport:
 T. R. Stephens, B. S., *Pl. Quar. Insp.*

DISTRICT HDQRS.:

Alabama—Bay Minette:
 S. C. Brummitt, *Sr. Sci. Aide.*
 Mississippi—Sunset:
 S. S. Easter, M. S., *Ag.*
 Texas—Tyler:
 F. A. Wright, B. A., B. S., *Jr. Ent.*

White Fringed Beetle:

GEN. FLD. HDQRS.:

Alabama—Floral:~
 R. N. Dopson, Jr., B. S., *Ag.*, in charge.
 K. S. Littig, M. S., *Ag.*

DISTRICT HDQRS.:

Mississippi—Laurel:
 G. F. Fulkerson, *Sr. Sci. Aide.*

Citrus Canker:

FIELD HDQRS.:

Texas—Houston:
 R. N. Dopson, B. S., *Ag.*, in charge.
 L. J. Padget, B. S., *Jr. Pl. Quar. Insp.*

Transit Inspection:

DIST. FLD. HDQRS. (WESTERN STATES):

Illinois—Chicago:
 J. M. Corliss, *Ag.*, in charge.

STATE HDQRS.:

Ohio—Cincinnati:
 E. J. McNeerney, *Ag.*, in charge.
 Minnesota—St. Paul:
 H. W. Hecker, B. S., *Asst. Pl. Quar. Insp.*, in charge. (In cooperation with Div. of Foreign Pl. Quar.)

Missouri—Kansas City:

E. A. Burns, A. B., *Ag.*, in charge.

Missouri—St. Louis:

M. E. Connolly, *Ag.*, in charge.

Nebraska—Omaha:

N. H. Dunlap, B. S., *Jr. Pl. Quar. Insp.*, in charge.

Tennessee—Memphis:

Glenn A. Moore, *Fld. Asst.*, in charge.

Texas—Dallas:

J. N. Rumph, *Ag.*, in charge.

DIST. HDQRS. (EASTERN STATES):

New York—New York:

M. J. Kelly, *Chief Sci. Aide*, in charge.

STATE HDQRS.:

Massachusetts—Springfield:

M. J. Sawyer, B. S., *Ag.*, in charge.

Pennsylvania:

Philadelphia:

H. B. Coulton, *Ag.*, in charge.

Pittsburgh:

K. S. Rohwer, *Fld. Asst.*, in charge.

Virginia—Alexandria:

H. J. Conkle, B. S., *Jr. Pl. Quar. Insp.*, in charge.

White-Pine Blister Rust (prevention of spread):

FLD. HDQRS.:

Illinois—Chicago:

J. M. Corliss, *Ag.*, in charge. (Coordinated with Transit Insp.).

DIVISION OF FOREIGN PARASITE INTRODUCTION

C. P. Clausen, M. S., *Prin. Ent.*, in charge.

FIELD LABORATORIES:

New Jersey—Moorestown:

T. R. Gardner, B. S., *Ent.*

France—St. Cloud, S. & O.:

H. L. Parker, D. Sc., *Ent.*, in charge.

H. D. Smith, B. S., *Assoc. Ent.*

W. F. Sellers, B. S., *Assoc. Ent.*

China—Foochow:

FARM SECURITY ADMINISTRATION

The Farm Security Administration is established within the Department of Agriculture to carry out in part the provisions of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937. This act expresses the policy of Congress to continue a program of rural rehabilitation providing for the advancement of funds to needy farm families and the equitable adjustment of farm debts. It provides for a program of long-term loans to worthy farm tenants to assist them in becoming farm owners. The Farm Security Administration is also charged with the completion and administration of resettlement and rehabilitation projects prosecuted under the program of the former Resettlement Administration.

FEDERAL SURPLUS COMMODITIES CORPORATION

The Federal Surplus Commodities Corporation was organized on October 4, 1933, under the laws of the State of Delaware, as the Federal Surplus Relief Corporation, a nonprofit corporation without capital stock, the members of which were designated as the Secretary of Agriculture of the United States, the Administrator of the Federal Emergency Relief Administration, and the Administrator of the Public Works Administration. On November 18, 1935, the charter of the corporation was amended to change the name to the present title, "Federal Surplus Commodities Corporation," and to change the membership of the corporation so that it would consist of those persons who from time to time may occupy the positions of the Secretary of Agriculture of the United States, the Administrator of the Agricultural Adjustment Administration, and the Governor of the Farm Credit Administration. These changes effected transfer of direction of the corporation from the Federal Emergency Relief Administration to the Department of Agriculture.

With the passage of Public No. 165, Seventy-fifth Congress, approved June 28, 1937, the Federal Surplus Commodities Corporation has become the principal agency of the Secretary of Agriculture for the removal of surplus agricultural commodities and their diversion from the normal channels of trade to the needy and underfed. The corporation purchases, exchanges, processes, transports, handles, stores, and distributes surplus agricultural commodities pursuant to the directions of the Secretary of Agriculture on a noncommercial basis and finds outlets for these commodities through State relief agencies, who make the commodities available to relief families in addition to, rather than in substitution for, other forms of direct relief. The corporation operates through a Procurement Section, Distribution Section, Accounting Section, and an Audit Section, having one field office in San Francisco, Calif., and regional directors located in Chicago, Ill.; Elizabeth, N. J.; Oklahoma City, Okla.; and Columbia, S. C., to serve as contact with State relief agencies. Otherwise, all operations are conducted by the Washington office through a series of mobile field units usually headed by a purchasing agent and moving from surplus area to surplus area as conditions warrant.

FOOD AND DRUG ADMINISTRATION

The Food and Drug Administration enforces the Food and Drugs Act, Tea Act, Naval Stores Act, Insecticide Act, Import Milk Act, Caustic Poison Act, and Filled Milk Act.

This Administration inspects and analyzes samples of the various products coming under its surveillance, both at its field stations and in its laboratories at Washington, to the end that it may detect and cause to be removed from the channels of trade all those that fail to comply with the terms of the acts which it enforces. It assists manufacturers to keep their products in compliance with these acts and institutes legal action against those who violate the law. Its primary function is to protect the consuming public against misbranded or adulterated foods, drugs, naval stores, insecticides, and fungicides, and honest manufacturers against enforced competition with such goods.

FOREST SERVICE

The Forest Service is the agency of the Federal Government concerned with the proper use of the land through forestry. It is specifically responsible for the forestry aspects of proper land use on farms, large privately owned areas, and certain public lands. In cooperation with other branches of the Department concerned with the promotion of better land use, the Forest Service conducts research and applies its results on the land. It protects, administers, and develops the national-forest properties comprising 174,405,397 acres of Government land. Technical forestry methods are applied in growing and harvesting timber. Grazing by livestock and big game is scientifically regulated. Sustained and, where possible, increased yields of timber, forage, and wildlife are obtained. Water from the watersheds protected by national forests is made available, in the country and in cities, for domestic, agricultural, and industrial purposes. Simple, democratic, and inexpensive forms of recreation in the forests are encouraged. Under management to assure replacement, provision is made for many other forms of land and resource use.

The Forest Service also cooperates with States in maintaining organized protection of forest lands against fire and in distributing planting stock to farmers for windbreaks, shelterbelts, and farm woodlands; conducts investigations in the entire field of forestry, including industrial research and research in forest economics and taxation; furnishes information about the best uses of forests and forest products; seeks to promote application of forestry and efficient and economical use of all resources on private as well as on public forest lands.

BUREAU OF HOME ECONOMICS

The Bureau of Home Economics conducts scientific research on foods and nutrition, economic problems, textiles and clothing, and housing and equipment from the consumer standpoint. The results of this research are made available in the form of technical bulletins and progress reports for the use of scientific workers in home economics and allied fields. For homemakers and consumers in general the basic research is translated into popular bulletins, radio talks, and exhibits, covering such practical problems as diet planning, preparation of foods to conserve nutritive value, guides for selecting and caring for household textiles and equipment. The Bureau through the home demonstration agents under the Extension Service and the State colleges of agriculture is in close contact with homemakers and professional home economics workers throughout the country.

BUREAU OF PLANT INDUSTRY

The activities of the Bureau of Plant Industry are devoted to plant research and related problems. They include experiments in the improvement of plants so as to increase the certainty of their yield and quality by increasing resistance to unfavorable environments, to diseases and to insect pests, thereby attaining stability of efficient production; fundamental research on the laws of inheritance looking to the establishment of the soundest procedures in plant breeding; the introduction and testing of promising seeds and plants from foreign countries; investigations of the methods of cultivation and allied operations, such as spraying to protect from important diseases, making for economical and profitable production of field, fruit, vegetable, and ornamental plants, together with studies of the physiology, morphology, and cytology necessary to an adequate understanding of the relation between environment and cultivation on the one hand and yield and quality on the other; fundamental studies of the relation of the crops to the soil including material and methods making for successful fertilizer practice and the function of micro-organisms in soil fertility and crop production; and investigations seeking to establish the best methods of storing plant products in warehouse or during transportation in order to insure maximum final quality and minimum loss and expense during storage and marketing.

The regulatory activities of the Bureau are limited to the enforcement of the Federal Seed Act and the control of quality of plant and soil inoculants.

In addition to the experimental activities of the Bureau at the Arlington (Va.) Experiment Farm, which is immediately adjacent to the District of Columbia, and at the United States Horticultural Station at Beltsville, Maryland, the Bureau operates field stations or laboratories in practically all the major cropping regions of the

United States, a majority of its activities being in direct cooperation with the State agricultural experiment stations.

Land in the District of Columbia has been acquired by the Bureau on which to establish and maintain the National Arboretum.

BUREAU OF PUBLIC ROADS

The Bureau of Public Roads is the principal road-building agency of the Federal Government. Since 1916 it has acted for the Secretary of Agriculture in administering Federal aid to the States for highways. From 1921 to 1933 all efforts were concentrated on the Federal-aid system consisting of 221,130 miles. Since 1933 the Bureau has administered large sums to provide employment through the construction of highways and the elimination of hazards at grade crossings. In this work the Federal program was broadened to include extensions of the Federal-aid system through cities and secondary or farm-to-market roads. This broadened program is now continued with regular Federal-aid funds.

Under the Federal Highway Act funds are apportioned to the States according to a prescribed formula. The State highway departments select projects for improvement, prepare plans, and supervise construction, all subject to Federal approval and limitations imposed by law.

The Bureau also supervises a large amount of road construction in national forests, national parks, public lands, and Federal reservations. A part of the work is done with funds made available to the Department. Work is also done with funds of other Federal agencies under cooperative agreements under which the Bureau furnishes its engineering services.

Since its creation in 1893 the Bureau has continuously carried on research on the design and construction of highways. Highway materials, highway surfaces and subgrades, and the forces acting on surfaces have been subjects of continuing study for many years. These studies are carried on by a staff of engineers devoting their entire time to research and located at Arlington Experiment Farm near Washington. Many special problems that arise in the course of the large construction programs with Federal funds are referred here for solution. Results of the work at Arlington influence highway construction by all agencies in the United States.

SOIL CONSERVATION SERVICE

The Soil Conservation Service conducts research into the causes, nature, and extent of soil erosion; develops practical measures and practices for its prevention and control; establishes and maintains, in cooperation with individual farmers, erosion-control demonstration projects in selected watersheds and natural land-use area; supervises the application of erosion-control measures to public lands in the West and Southwest; and assists legally organized groups of farmers in planning and executing soil conservation programs. The Service maintains soil-erosion experiment stations and other research projects in major agricultural regions; operates a series of nurseries for the propagation and production of erosion-resistant plants; and makes surveys necessary as a basis of soil conservation planning and field operations. It also supervises the technical activities of a complement of C. C. C. camps assigned to soil conservation work.

Hugh H. Bennett, B. S., LL. D., *Chief.*

FARMERS' HOME CORPORATION

The Farmers' Home Corporation was created within the Department of Agriculture by section 40 (a) of the Bankhead-Jones Farm Tenant Act. In accordance with further provisions of said act, the Secretary of Agriculture has directed that the board of directors of the Farmers' Home Corporation shall act as general adviser to the Secretary and to the Administrator of the Farm Security Administration on general policies relating to title I (farm tenant provisions) and title II (rehabilitation loans) of said act, and shall further advise the Secretary with respect to the coordination of the program authorized by said titles I and II with the general work of the Department.

Harry L. Brown, B. S. A., D. Sc., *Asst. Secy. of Agr., Dir.*

A. G. Black, Ph. D., *Chief, Bur. Agr. Econ., Dir.*

Will W. Alexander, D. D., LL. D., *Admin., Farm Security Admin., Dir.*

JOURNAL OF AGRICULTURAL RESEARCH

JOINT COMMITTEE ON POLICY AND MANUSCRIPTS

The functions of the Joint Committee for the Journal of Agricultural Research are to establish and maintain the general publication policies and standards for this periodical. This committee prepares or approves the printed regulations stating the conditions for acceptance of articles in the Journal and giving detailed instructions for the preparation and handling of manuscripts intended for this outlet. The Department Committee passes upon the manuscripts originating in the bureaus, and the Land-Grant College Committee those submitted from the State agricultural experiment stations.

For United States Department of Agriculture:

H. G. Knight, Ph. D., *Chief, Bur. Chem. and Soils, Chairman.*

F. L. Campbell, M. S., D. Sc., *Ent., Bur. Ent. and Pl. Quar.*

C. E. Ladd, Ph. D., *Dir. N. Y. (Cornell), Agr. Expt. Sta.*

Editorial Supervision:

M. C. Merrill, Ph. D., *Chief of Pubs., Off. of Inf., U. S. Dept. of Agr.*

TENNESSEE VALLEY COORDINATING COMMITTEE

The function of this regional coordinating committee is to insure coordination of the agricultural activities of the three agencies named and to provide complete cooperation, whenever desirable, in conducting the programs they develop.

The Tennessee Valley Authority, created in 1933, is required to conduct various agricultural activities in the conservation and use of water and land, including erosion control through vegetative cover, and in cheapening the cost and improving the quality of fertilizers, including extensive farm tests of new forms produced. These activities are closely related to those of older agencies, such as the Department and the State colleges, which are conducting effective and largely cooperative programs of research, experimentation, and extension. Coordination is provided for under a three-way memorandum of agreement signed in 1934 by the Secretary of Agriculture, the presidents of the State colleges of agriculture in the seven Valley States, and the directors of the Authority.

Thomas P. Cooper, B. S. A., *Dean, Coll. of Agr., Univ. of Ky., Lexington, Chairman.*
J. C. McAmis, B. Sc., *Dir., Dept. of Agr. Relations, Tennessee Valley Authority,*
Knoxville.

Clyde W. Warburton, D. Sc., *Dir., Ext. Service, U. S. Dept. of Agr., Washington.*
Carleton R. Ball, D. Sc., *Exec. Secy. of the Committee, Ext. Service, U. S. Dept. of*
Agr., Washington.

FIELD ACTIVITIES

INTRODUCTION

This is a geographical directory showing the field activities of the Department listed by cities and towns at which employees are located in the States, Territories, possessions, and in foreign countries.

The work at each location is given by bureaus and offices of the Department. After the abbreviation for the bureau (see abbreviations below for bureaus and offices having field activities), and the location within the city or town, the nature of the work is indicated briefly. With the exception of the work of Farm Security Administration, no attempt has been made to show work conducted under emergency fund allocations. The figures in parentheses show the number of permanent employees, followed by the name of the person with whom contacts might be made. A dagger (†) indicates employment on a cooperative or a part-time basis. In many cases, employees shown at one location may carry on work at other locations in the surrounding area.

For the Extension Service, only State headquarters are given, with the numbers of employees—county agents, home demonstration agents, and others—shown under the State headquarters rather than in the counties where they are actually located. A similar plan has been followed to show the rural rehabilitation work of the Farm Security Administration. The resettlement projects and land-use projects (the latter are being transferred during the fiscal year 1938 to the Bureau of Agricultural Economics) of the Farm Security Administration are shown under the city or town at which the project manager is located. Some of the land-use projects, as indicated, are being developed by other agencies. Only the headquarters of the supervisor are given for each national forest and not the individual ranger districts. The locations given for the Weather Bureau include only those where full-time personnel are stationed, and exclude many cooperative and part-time observers.

Much of the work of the Department, of course, is conducted in cooperation with State and local agencies, and with other Federal agencies. Although in many cases work is indicated in this directory as cooperative, limitations of space prevent including details of the numerous cooperative arrangements effected in carrying on the work of the Department.

The following abbreviations are used for bureaus and offices having field activities:

AAA-----	Agricultural Adjustment Administration.
BAE-----	Bureau of Agricultural Economics.
BAI-----	Bureau of Animal Industry.
BBS-----	Bureau of Biological Survey.
BDI-----	Bureau of Dairy Industry.
BPI-----	Bureau of Plant Industry.
BPR-----	Bureau of Public Roads.
C&S-----	Bureau of Chemistry and Soils.
CEA-----	Commodity Exchange Administration.
E&PQ-----	Bureau of Entomology and Plant Quarantine.
ENG-----	Bureau of Agricultural Engineering.
EXT-----	Extension Service.
F&D-----	Food and Drug Administration.
FS-----	Forest Service.
FSA-----	Farm Security Administration.
FSCC-----	Federal Surplus Commodities Corporation.
INF-----	Office of Information.
OES-----	Office of Experiment Stations.
RC-----	Research Center, Beltsville, Md.
SCS-----	Soil Conservation Service.
SOL-----	Office of the Solicitor.
WB-----	Weather Bureau.

Invest. of temperate-climate crops for the benefit of continental agr.; invest. of certain tropical crops important to the economy of continental United States; crop studies for the benefit of Puerto Rican agriculture; studies in parasit. of domestic animals; (16-1†) Atherton Lee.
 SCS----- Care U. S. D. A. Tropical Fld. Sta. Hdqrs. for work in P. R., which is conducted in coop. with the Insular Expt. Sta.; (4) G. L. Crawford. Soil and moisture conserv. invest. in P. R.; (2) R. L. Davis. Watershed and conserv. surv. in P. R.; (2) J. W. Elliott.

PUERTO RICO—Continued

Rio Piedras:

- EXT..... Coll. of Agr. & Mech. Arts. Hdqrs. of coop. ext. work; (12†) A. R. Geigel. Co. agts. (35†); asst. co. agts. (13†); home dem. agts. (10†); asst. home dem. agts. (1†).
- FS..... Caribbean Nat. For., Supvr.'s hdqrs.; (3) E. W. Hadley.

San Juan:

- AAA..... Nat. City Bank Bldg. Dist. off. for insular conserv. work; (2-10†) Theodor Juhl. Puerto Rico office for admin. of sugar program; (8-40†) J. B. Frisbie.

PUERTO RICO—Continued

San Juan—Continued.

- BAI..... Ochoa Bldg. Insp., quar., and testing of import and export animals; supervision over importation of hides and other animal byproducts, forage, etc.; insp. of imported meats and meat food products; erad. of tuberculosis and elim. of Bang's disease in cattle; cattle tick erad.; (11-13†) Wilbur McPherson.
- BPR..... Carrera Bldg. Fed. aid hwy. work for island of P. R.; (1) A. C. Clark.
- E&PQ... Ochoa Bldg. Enforcement of plant quar.; certification of plants and plant products for export; (7) W. A. McCubbin.
- WB..... WB Bldg. Gen. and airway weather services; (7) R. W. Gray.

FOREIGN COUNTRIES

ARGENTINA

Buenos Aires:

- BAE..... Boston Bank Bldg. Foreign competition and demand; (1) P. O. Nyhus.

CHINA

Foochow:

- E&PQ... Fukien Christian Univ., Dept. of Agr. Foreign parasite introduction; (1) C. R. Kellogg.

Shanghai:

- BAE..... Foreign competition and demand; (2) O. L. Dawson.

ENGLAND

London:

- BAE..... American Embassy. Foreign competition and demand; (4) C. C. Taylor.
- BAI..... Care American Consulate. Insp. of import animals; supervision over importation of hides and other animal byproducts, forage, etc.; (1) T. P. White.

Manchester:

- BAE..... Care American Consulate. Foreign competition and demand; (1) Fred Taylor.

Oxford:

- BPI..... Hope Dept., Univ. Museum. Invest. of epidemic tree diseases; (1) J. M. Walter.
- E&PQ... Hope Dept., Univ. Museum. Study of vectors of the Dutch elm disease; (1) D. E. Parker.

FRANCE

Paris:

- BAE..... American Embassy. Foreign competition and demand; (2) N. I. Nielsen.

St. Cloud:

- E&PQ... 61 Ave. Belmontet. Invest. on the natural enemies of the corn borer and alfalfa weevil in Europe, of the pink bollworm in Egypt, and of a number of forest insects; incidental work upon those of other crop pests and the exportation of these enemies to the United States; (3) H. L. Parker.

GERMANY

Berlin:

- BAE..... Bellevue Strasse 8, W. 9. Foreign competition and demand; (3) L. V. Steere.

JAPAN

Yokohama:

- E&PQ... Canadian-Pacific Bldg. Invest. of oriental fruit moth and Japanese and Asiatic beetles; (1) R. W. Burrell.

MEXICO

Mexico, D. F.:

- E&PQ... Calzada Mexico-Tacuba 295. Hdqrs. for invest. of control measures for fruitflies; (4) A. C. Baker.

YUGOSLAVIA

Belgrade:

- BAE..... Kr. Ferdinanda ul. Br. 21. Foreign competition and demand; (1) L. G. Michael.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β .

2. In the second part, the author considers the case of the existence of solutions for the system of equations (1) for arbitrary values of the parameters α and β .

3. The third part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β .

4. In the fourth part, the author considers the case of the existence of solutions for the system of equations (1) for arbitrary values of the parameters α and β .

5. The fifth part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β .

6. In the sixth part, the author considers the case of the existence of solutions for the system of equations (1) for arbitrary values of the parameters α and β .

7. The seventh part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β .

8. In the eighth part, the author considers the case of the existence of solutions for the system of equations (1) for arbitrary values of the parameters α and β .

of Organization and Field Activities of the Department of Agriculture.

Regional Chiefs and State Land-Use Planning
Specialists of the Bureau of
Agricultural Economics*

Under the immediate direction of the regional director, the State land-use planning specialists exercise responsibility for developing the land-use planning program within their respective States or Regions, maintaining contacts with interested agencies, including service on or with State agricultural planning committees (or State agricultural advisory councils) as requested or authorized. The specialists (1) execute an approved land-use planning program within established policies, procedures, standards, etc., (2) carry out an approved program seeking institutional changes and an approved educational program, (3) create and maintain cooperative relationships with other agencies in the State engaged in related activities, and, when requested by the regional director, enter into preliminary negotiations for cooperative agreements, and (4) render assistance in the preparation of preliminary project proposals for land purchase.
